

6 ways ODD360 can boost your operational efficiency.

Are you investing more on manual power to analyze DDQs and assess risks? Experience a superior Operational Due Diligence process with ODD360.

[I want a demo](#)

Before ODD360

- Spreadsheets-driven DDQ processes
- Back-and-forth email follow-ups and clarifications with your manager
- Manual report generation and audit response
- Manual effort to create portfolio analytics
- Limited benchmarking capabilities
- Scattered data reports

With ODD360

- Fully automated DDQ and RFI workflows
- Pre-populated answers and bird's-eye evaluations of only what is modified
- Extract answers from DDQs and get advanced analytics
- Automatic issue management
- Automatic report generation
- Centralized documents and pre-built workflows

"With the CENTRL solution, we have reduced the time to do our weekly, monthly, quarterly, and annual reporting activities by 50%."

Senior Analyst,
Global Investment Fund

Are you ready to switch to an automated ODD platform?
